

The ABCs of Saving the Earth at THES!

Aluminum Cans = recycle empty aluminum cans in the cafeteria bins, and don't forget to take off the pop top first!

Bottle Caps = put caps from drink bottles into the buckets in the cafeteria. Collect some at home and bring them into school to be reused!

Box Tops = clip box tops from grocery items at home and put in the bin at the front of the school to earn \$ for THES!

Chip Bags = put empty chip bags in the Terracycle bins in the cafeteria. Bring some from home, too!

Drink Pouches = put empty drink pouches in the Terracycle bins in the cafeteria. Don't forget to remove the straw and wrapper first.

Earth Savers needs your help to save the planet!

Flip Flops = save your old flip flops for a collection in the spring. They will be made into playground surfaces!

Glue = put empty Elmer's brand glue sticks and glue bottles into your classroom bin for Terracycle.

Household "trash" = send in (uncrushed) cereal boxes, egg cartons, CLEAN plastic containers, toilet paper and paper towel rolls to be used in Children's Engineering projects in Blazer's Clubhouse! A collection bin is at the front of the school.

And PPPST!!!

It's no secret that we also recycle these.....

Paper = white paper, colored paper, construction paper....put them all in your classroom recycling bin!

Plastic Bottles = recycle empty plastic bottles in the cafeteria bins. Remember to put the cap in the collection bucket first!

Pop Tops = pop the tops off aluminum cans at school and at home and put in Ronald McDonald House boxes around the school.

Soccer Cleats and

Tennis Shoes = bring to the box at the front of the school to be donated to needy kids or reused for playground surfaces.
